

Inserts and organisers for board games

catalogue

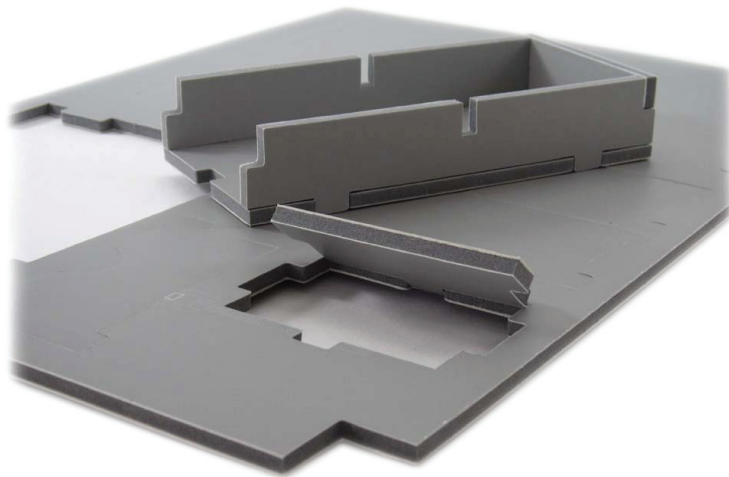

may 2023

Folded Space is here to bring you board game organisers which will change the way you store, transport and, most importantly, play your games!

Our inserts are designed with space for sleeved cards, and to allow boxes to be stored vertically on your shelf. The designs are functional and easy to use, to ensure fast game setup, quicker game-play and clearing away times.

The inserts use a lightweight material, Evacore, that is new to the board game industry. This innovative material is 5mm thick and is composed of a layer of flexible foam to which two layers of colour printed card are laminated. The resulting Evacore sheets are robust, flexible, can be cleaned with a damp cloth and are precision cut.

Your Folded Space insert will contain a number of cut sheets of the Evacore material. The trays are easy to punch out and are fun to build using everyday PVA glue. Easy-to follow instructions are included in the box.

Lightweight

No tools needed

Easy to assemble

Tough

FS-7WO Insert, compatible with:

7 Wonders®

15.50 €

Includes space for these expansions:

Babel®
